

SAT/PSAT Prep Syllabus

Beth Bomberger and Ellen Campbell

Course Supplies: SAT: Total Prep 2018

This is a pass/fail course. Students must attend at least 12 classes, complete at least 12 English homework assignments, and complete at least 12 Math homework assignments to receive a passing grade. This is the minimum requirement, and students are encouraged to attend all classes and complete all assignments to receive the full benefit of the course.

- 14 – English – work on specific needs
Math - work on specific needs
- 15 – English – work on specific needs
Math - work on specific needs

Math homework details:

Complete homework on notebook paper that can be handed in each week. Please use pencil and eraser, rather than pen and scribbling. Neatly label all work so you can easily find your problems and answers.

After completing the homework, correct your own homework, writing “-number of problems wrong” at the top of the page. After looking at the answers and explanations beginning on page 881, write any problem numbers you still do not understand at the top of your notebook paper.

I have read the syllabus, and understand the course requirements:

Student name (printed): _____

Student signature: _____

Parent name (printed): _____

Parent signature: _____
